**Sarajevo, April 17, 2017**

**Ref: Official Endorsement of the Mediterranean Journal of Rheumatology (MJR)**

Dear Editors of the MJR,

On behalf of the Society for Osteoporosis of Federation of Bosnia &

Herzegovina, I would like to officially endorse the Mediterranean Journal of Rheumatology (MJR) as a valuable reference for our membership.

We follow publications in this regional journal and consider it for relevant citations in our papers on bone remodeling, inflammation-induced osteopenia and osteoporosis.

We would be delighted to see Bosnian papers on osteoporosis in rheumatic diseases published in this prestigious source of information and networking platform for Balkan and Mediterranean rheumatologists and allied specialists.

With very best regards,

Prof Šekib Sokolović, MD  
President of the Society for Osteoporosis, B&H
